

The School Buzz

A WORD FROM THE ADMINISTRATION

It is with great pride and pleasure that we write the foreword to our third and last newsletter for this academic year.

Each year is special in the life of our school, and this year was no different as it presented an opportunity for all members of our school community to reflect on our vibrant school life. It served as a testimony to the successes that we, the staff and students together, have achieved.

At ISC-Ajman, our students and staff have given their time very generously and enthusiastically, resulting not only in different success stories, but also in the establishment of a deep sense of community. The impact of the numerous activities and events has been significant, adding considerably to the constructive culture and the success of the school as a whole.

During their involvement in the SLO, students eagerly embraced the concept and values of this organization that allows students to be involved, to feel empowered, to have influence and thereby be responsible, and most importantly, to collaborate, thus learning to live in the world that is their future.

As we take this time to go through the book and pages reminiscing on the academic year, we realize that it is quite impossible to capture all the moments, memories, and highlights in one newsletter.

On behalf of the School Director, we send a huge “thank you” to everyone for the continuous passion, contribution, and teamwork.

Sincerely,

The ISC-Ajman Administration

NEWS & UPDATES

Back to School Term 3

To empower, support, and bring in some fun to our students, we created a trend that our students wait for with enthusiasm. Every first day of school of every term, we welcome them back to school with a bright and warm greeting. Students feel happier about coming to school and approach learning with a more optimistic mindset. This also helps build the bond between students, teachers, and staff, which is an important part of making connections for learning throughout the term.

Cupcakes Activity

Our students were extremely delighted when they got a chance to creatively decorate their own cupcakes!

During the activity, students enjoyed adding frosting and toppings to create a colorful cupcake.

The activity brought huge smiles to our students' faces and was time well spent together.

Grade 3 and 4 Picnic

At the end of Term 3, Grade 3 and 4 students enjoyed a fun-filled picnic in the school's gym. The excitement was noticeable by the amount of chatter and noise coming from the students as they entered the venue.

At the picnic, students enjoyed eating together the delicious food provided by parents. Once the students were done eating, they had fun dancing and running around with their friends. Students took part in games, dances, and activities. It was a really enjoyable way to spend their break time!

Grade 8-10 BBQ

On the evening of the last Friday of Term 2, students gathered to sit on the green field, which was transformed into a wonderland. Colorful tables and seats were spread around the field, and the smell of cooked meat wafted through the air. Laughter, conversations, and even dancing were seen and heard among the crowd. After a long day of exams, unwinding in the perfect weather with great food, good company, and enjoyable activities were all that was needed. And that is exactly what the students did!

Mother's Day

On the morning of Mother's Day, ISC-Ajman prefects welcomed mothers with flowers as an act of appreciation and gratitude. Afterward, Pre-KG to KG 2 mothers were invited to a well-decorated reception where students sang Mother's Day songs, crafted personalized cards, and commemorated this lovely occasion with memorable photos.

On this day in art class, students also enthusiastically and joyfully wrote letters and designed various crafts for their mothers.

Open House

Parents, children, and staff had the time of their lives at our Open House on June 4 and June 18. SLO prefects and teachers led a variety of presentations, activities, demo lessons, and tours of the campus. The event was both entertaining and informative.

World Environment Day

World Environment Day is a chance to encourage and remind our students to take part in preserving and appreciating our environment. The values we instill in our students are what they carry with them to create a better future.

STUDENT ACHIEVEMENTS

Robotics Competition

The SABIS® Robotics Competition that took place virtually and welcomed students from 13 schools was a huge success.

ISC-Ajman students participated in two teams, two students each, representing a Control Team and a Programming Team. We are so proud of both teams who put in a lot of effort to succeed.

We are also proud of the Control Team students who made it to the finals and came in third place. We are looking forward to next year's competition!

SPORTS HIGHLIGHTS

Sports Awards

Our P.E. department recognized the potential and hard work of students in their P.E. classes and awarded them with certificates to highlight their accomplishments.

Sports activities are crucial for the growth of students, physically and mentally, and by appreciating their work, we encourage them to invest more in sports and stay active and healthy.
