KGs and Grade 1 Story Telling

To end their year with a smile, the SLO and KG department organized fun story telling sessions for KG1 to Grade 1 students.

During the sessions, students brought their teddy bears along and enjoyed listening to the stories presented by their teacher. Our students learned a lot from this unique activity that boosts their listening skills, fosters their imagination, enhances their communication and social skills as well as sharpen their memory in a fun and engaging way. The student's laughter filled our hearts with the most beautiful sound of happiness. We looking forward to meeting them again next academic year in September.

Cultural Dress-Up Day

In celebration of cultural diversity at ISC–Ajman, we hosted a Cultural Dress-Up Day on June 10th and June 13th for our KG1 to Grade 4 students.

Students attended school, physically or online, wearing the national dress of their country.

During the day, students participated in a Show and Tell activity sharing with others different monuments, artefacts, significant places, food, and many other items related to their native country.

This activity helped students gain a deeper understanding of other cultures and traditions from around the world, as well as, instilling the UAE values of peace and tolerance towards other cultures.

Students gained a deeper understanding of other cultures

Student Achievements

Hands-On Experience and Rewards

Various hands-on experiences and motivational rewarding events took place this year in order to prepare and equip our students with the knowledge and skills required to help them achieve success in a changing world. With a balance of academics and extracurricular activities, we prepare our students for success in college and help them develop into responsible world-class citizens while fostering a lifelong interest in learning.

We continue to support our students and celebrate their success as a sign of appreciation for their hard work and as a tool to boost their confidence and self-esteem which will help them reach their fullest potential.

The SABIS® Student Life Organization in Action

Online activities were up and running throughout Term 3, ranging from academic support such as Peer Tutoring, study groups and power study sessions, to events like Spelling Bees and a Mental Math challenge. Prefects also organized tremendous extra-curricular and sports activities varying from ISC-Ajman's first Talent Show that highlighted our student's amazing talents and performances to the Healthy Sandwich Day and sports activities promoting a healthy lifestyle among our students. In addition, we celebrated earth day, reading day and showcased artistic talents in the Art club and the dance group club. Our prefects also went the extra mile and prepared many campaigns to teach their peers how to be responsible and stay safe online. We thank all the prefects and participants for their amazing contribution.

With the help of the prefects, online activities were up and running

Mad Hatters Tea Party

During the month of May 2021, we organized the ISC-Ajman Readathon as part of our efforts to instill the love of reading in our students. At the end of the readathon, we hosted a “Mad Hatters Tea Party” for all the KG1 – Grade 1 students, where they interacted with their friends and teachers, shared their favorite books and enjoyed their time in a colorful and joyful atmosphere as they attended their “Tea Party” wearing creative and awesome hats!

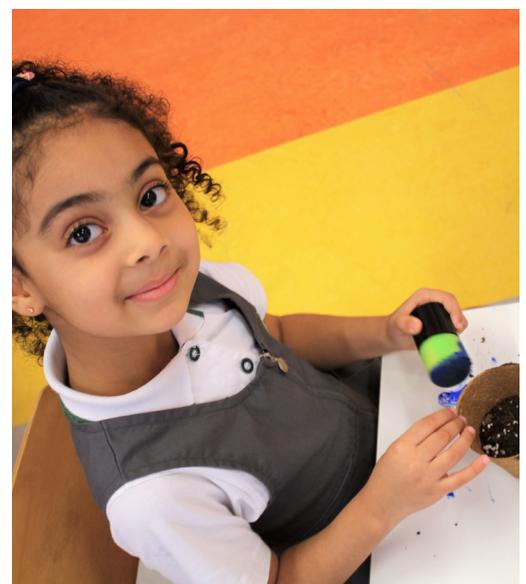

Planting Seeds

“Tell me and I’ll forget. Teach me and I’ll remember. Involve me and I’ll learn.” - Benjamin Franklin

Over two weeks during June our KGs and Grade 1 students had the opportunity to gain hands-on experience through planting cucumber seeds during their science classes.

Students interacted and shared their favorite books.
